

STUDIO MÉGAPHONE

Studio Mégaphone is an exclusive environment for surround and stereo mixing/mastering and post production. Studio engineers and sound professionals can take advantage of the studio's state of the art Pro Tools HD based system.

Our Gemeau award-winning in-house engineer Daniel Toussaint provides clients with services ranging from original sound design to final mastering.

The facility is also equipped with a private screening room seating 20 people where our clients can enjoy a full screen experience of their work. In addition, studio owner Anders Arbén gives access to his private collection of over 50 vintage synthesizers.

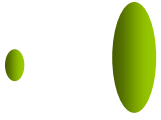

Located near the Olympic Stadium, 15 minutes from downtown Montreal, Studio Mégaphone provides audio professionals peace of mind, comfort, easy access and private parking.

Whether you are a professional in the audio field or a client in need of a full service provider, Studio Mégaphone is there for you.
